# Convenience meets peace of mind

When you move with United Van Lines, you have the choice of shipping your household effects by van or container service. Moving by container provides unique benefits over moving by traditional van. Your United Moving Consultant will provide you with all of the details regarding the convenience of moving by container for your peace of mind.

When you choose van or container service, our commitment to customer satisfaction ensures a successful move.

# Safe and secure

Depending on your specific needs, budget or schedule, United Van Lines also offers another option: a Do-It-Yourself Moving Container Program called Flexible Move. This is for the long distance do-it-yourself mover who packs and loads their household goods into one or more of our moving containers. Once loaded, you place your own locks on each container! No need to worry about driving the container to your destination, United Van Lines will transport your possessions to your new home – safe and secure.

# Flexible to your needs.

United Van Lines was the first van line in Canada to introduce a national container service in 1973. An extensive variety of container sizes are available to service all types of moves.
